HOW TO SET PIXEL

STEP 1

Ensure that the control box is properly connected then Click the icon ✎ to enter Product Settings.

STEP 2

Click Pixel Setting to access the configuration.

STEP3

Refer to the table below for the corresponding pixel values of the OPT7 product.
Enter the correct values to ensure proper functionality.

IMPORTANT

*Verify that the control box is correctly set up and connected to the app when setting the conrol box pixel

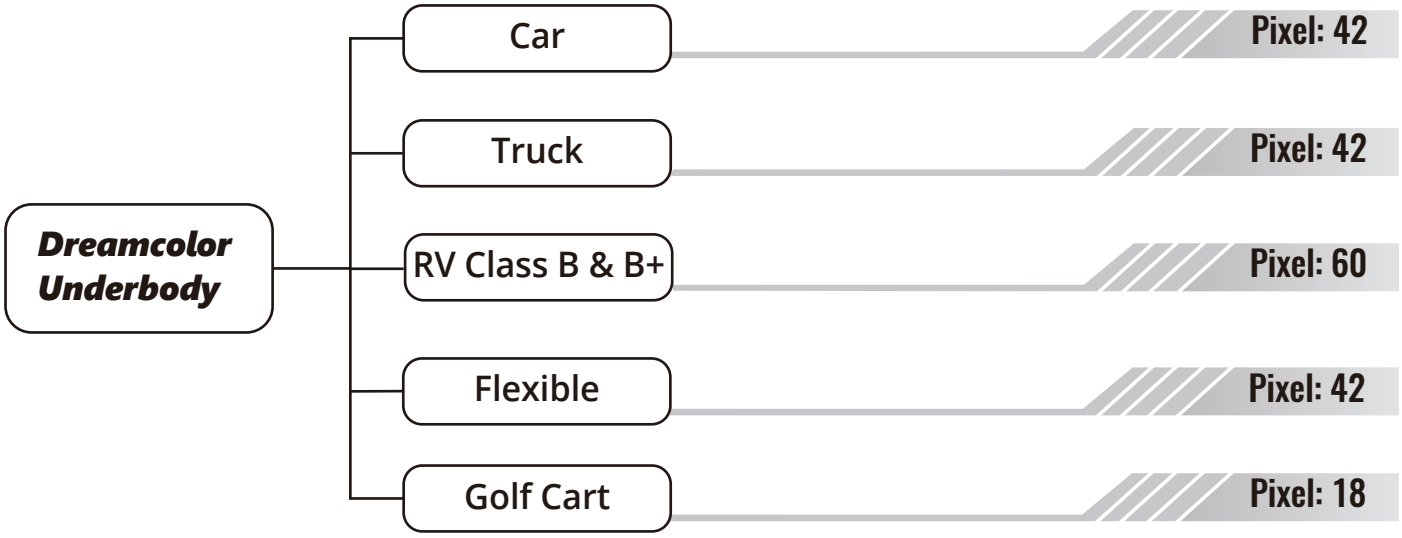

*Only Dreamcolor series products require pixel adjustments.

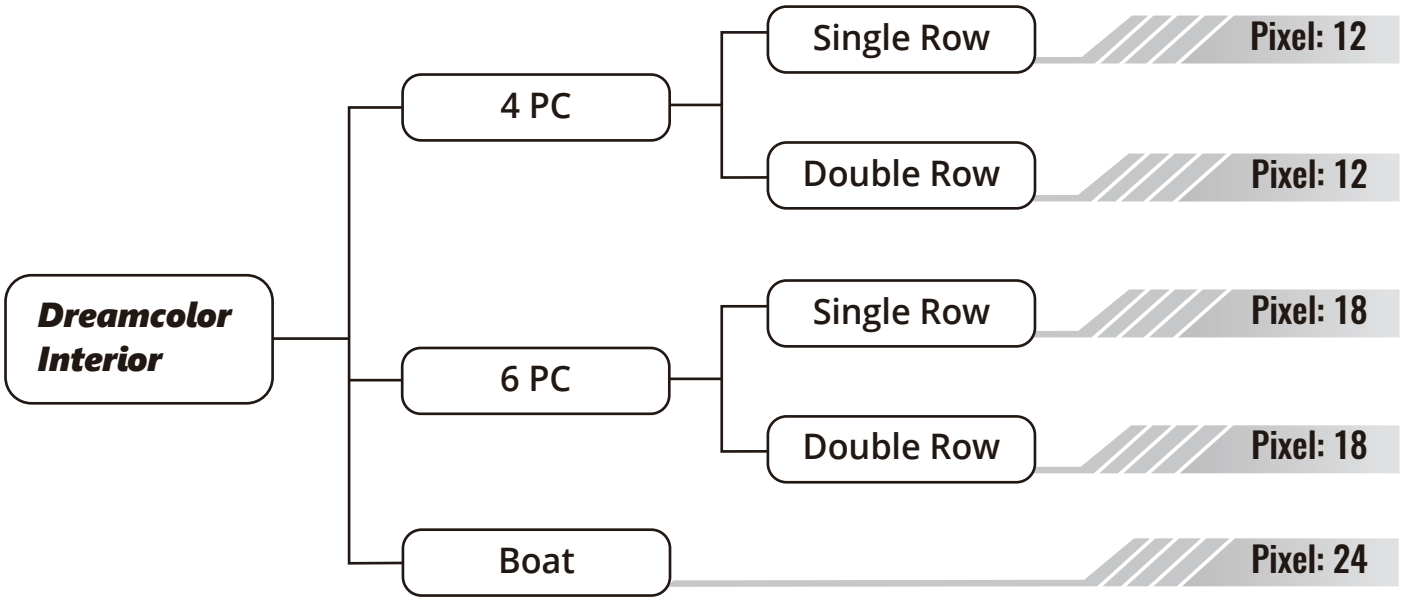

*Make sure to enter the correct pixel values corresponding to your product.

*Incorrect values may cause the product to malfunction.

*After setting the pixel, remember to pair the remote control.

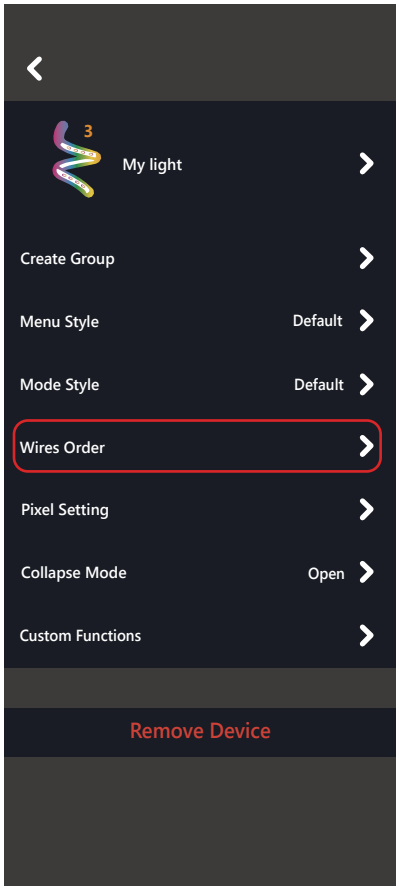

OPT7 GLOW DREAMCOLOR SERIES

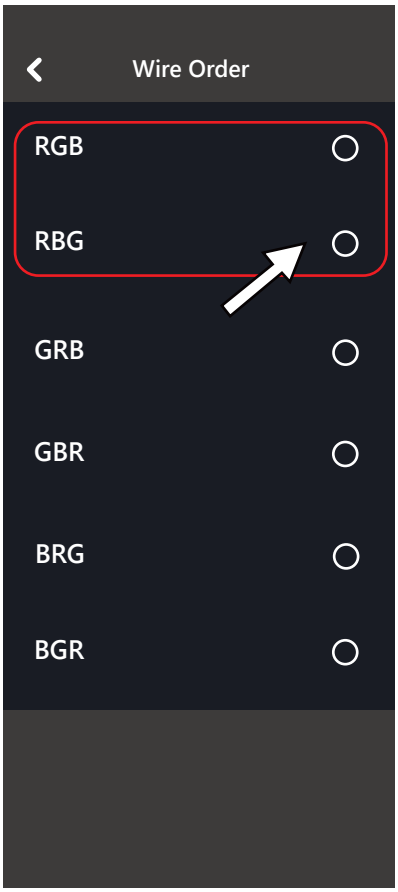

COLOR SETTING

If you are having issues with color discrepancy between what's selected in the app and what the light kit actually displays. Here's a detail breakdown to remedy the issue.

STEPS

1. Open Setting
   Navigate to the PENCIL Icon located in the upper right corner of the screen.
2. Access Wire Order Settings
   In the settings, locate and select the option labeled WIRE ORDER.
3. Select the RGB as the Color Option.
   Choose RGB as the color section. If selecting **RGB** results in incorrect colors, please switch to **RBG**.

*If the issue persists, please contact the OPT7 Support Team:
