LED 3RD BRAKE LIGHT

INSTALLATION MANUAL

INSTALLATION

1

Remove the brake light.
In a typical case, remove 2 fasteners and pull rearward on the brake light housing to release it from the body of the vehicle.

2

Disconnect the electrical plug from the original brake light housing.

3

Connect the electrical plug to your new brake light housing.

4

Seat the new brake light housing into it's appropriate slot.

5

Install the 2 fasteners that were removed from the original brake light housing.

6

Test your new brake light for function!
