# INSTALLATION

## EXAMPLE

Recommendation for methods and location

12V battery/ running light / ACC power

Sidekick Warning Light Strips

## STEP 1

Before mounting the Sidekick Flexible Warning Strips, connect the positive and negative wires directly to a 12V battery. This will help you verify that the strips are functioning correctly.

## HOW TO USE THE WARNING MODE FUNCTIONS

Using the included 6-Key Remote, to select the functions on the remote, see below.

- ❶ Power ON
- ❷ Power OFF
- ❸ White Color Mode
- ❹ Amber Color Mode
- ❺ Warning Light Mode Adjust (31 modes)
- ❻ Automatically Switch Warning Light Mode

# INSTALLATION

## VEHICLE WITHOUT RUNNING BOARD

## VEHICLE WITH RUNNING BOARD

## STEP 2

Use the provided screws and clips to ensure a solid installation and gently remove the adhesive backing from the light strip.

If there is a running board on the vehicle, please find a suitable place to install the sidekick warning light strips.

## IMPORTANT

\*Some vehicles are equipped with electric running board; please make sure it could work normally after installing the sidekick warning light strips.

## STEP 3

After you've mounted the strips, turn on your vehicle and check to ensure that all the lights are working correctly.
