# Warning

It is recommended that this installation be performed by a licensed professional. The improper installation of this kit will void all warranties.

PLEASE READ THE FOLLOWING INSTRUCTIONS THOROUGHLY BEFORE INSTALLING AND OPERATING THIS LED WHIP

## Step 1 Mount Up

- 1 Remove the bottom nut and the spring washer on the bottom of your quick-release mount
- 2 Mount the AURA WHIP into any open 1/2" bolt mount on your vehicle. Make sure the flat washer is inbetween the whip and the mount
- 3 Place the spring washer underneath the mount and then rescrew the bottom nut
- 4 Have a pair? Go for round 2 and mount the 2nd whip the same way

## Step 2 Get wired!

- 1 Grab your 8.5ft battery cord and connect it to the bottom hanging cord on your AURA WHIP
- 2 Screw on the waterproof cover for a secure hold
- 3 Have a pair? Connect the 4-prong plug coming out the side of the master AURA WHIP to the plug coming from the slave AURA WHIP.  
Note: The slave AURA WHIP cannot function without being connected to the master AURA WHIP
- 4 Feed the power cord through to your vehicle battery
- 5 Connect the terminal wire to the Positive(+) and Negative(-) terminals of your vehicle battery
- 6 Hide any extra wiring with zip ties

## Step 3

When whip is not attached to base, using supplied cap to keep dirt and debris out of connector.

## Step 4

Using the flag mounts to secure flag to the whip

## Step 5 Light It Up!

Use the EZ remote to showcase 366 unique light patterns
