

SIDE MIRROR TURN SIGNAL LIGHTS

Vehicle Fitment
RAV4 (2019~2025)
TACOMA (2016~2023)
HIGHLANDER (2020~2025)

INSTALLATION GUIDE

WHAT'S INCLUDED

**Side Mirror Light
Driver Side**

**Side Mirror Light
Passenger Side**

Plastic Pry Tool

INSTALLATION

STEP1

Push the mirror cover rearward by hand as shown in the diagram below.

***NOTE:**

**There are retaining tabs located near the inner edge (circled in red).
You may use the provided plastic pry tool to assist with removal.**

STEP2

***This step applies to: HIGHLANDER (2020-2025)
For RAV4 and Tacoma models,
you may skip Step 2 and proceed directly to Step 3.**

After removing the mirror cover, as shown in the front-view image of the mirror, locate the hidden clip on the back side roughly behind the blue circle. Use the plastic pry tool to release this clip and detach the mirror glass. Once the mirror glass is removed, locate and remove the four screws in the red circles.

INSTALLATION

STEP3

Refer to the diagram showing the mirror cover removed.

Unscrew the two screws circled in red on the left and right.

Pinch the tabs circled in blue inward and push it out to remove the turn signal light.

STEP4

Remove the factory turn signal light (as circled in red) and connect the OPT7 Side Mirror Light.

After completing the wiring, turn on the vehicle and test the turn signals.

After confirming proper operation, reinstall any remaining parts in reverse order of removal.

WARNING

Please ensure that the wiring all are mounted in areas where will not exceed 85°C or 185°F.
