INSTALLATION

STEP 1

Open the hood.

STEP 2

Wrap the LED strip into a circle shape and firmly press into place inside of the intake hole to secure.

OPTION #2

Attach the strip as pictured as an alternate method of install.

STEP 3

Remove the plastic covers on the right and left side of the engine bay.

STEP 4

Run the wires along the front bracket and connect to the control box.

STEP 5

Connect the power wire harness to your vehicle's battery, making sure to route the wires properly, so the harness reaches the control box.

Note: On most Dodge Challengers, the battery is located in the rear of the vehicle. Please verify its location before installation.

INSTALLATION

OPTION #2

If your battery is located in the front engine compartment, you may install the power harness there as an alternative installation method.

STEP 6

Test for function.

EXAMPLE

WARNING
