NOTICE

OPT7 PLUS supports the car media system with Bluetooth and Android Auto, but does not support Apple CarPlay.

HOW TO CONNECT

STEP 1

Install the OPT7 light kit, then launch the OPT7 PLUS App and ensure Bluetooth is turned on.

STEP 2

The App will automatically detect your OPT7 light kit. Tap the device to enter light control mode.

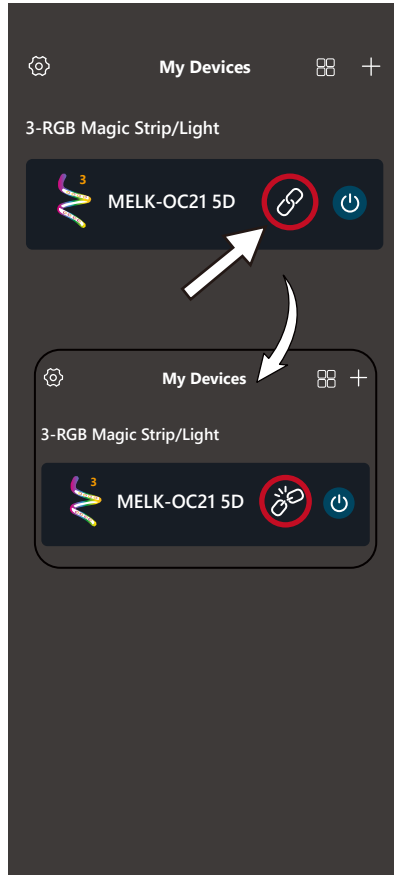

NOTICE

If the OPT7 PLUS shows the icon , which means the device is not connected. Please click this icon again or check if the Bluetooth and the OPT7 light kit work normally.

IMPORTANT

- *On Android, please enable the "Nearby devices" permission to allow searching for devices.
- *OPT7 PLUS App can connect up to 4 OPT7 PLUS control boxes.
- *If there is no device on the list, please check "Auto Add Devices" in System Settings instruction on page 4.

HOW TO DISCONNECT

STEP 1

Use the remote control to disconnect the OPT7 light kits.
*Need to align the control box.

STEP 2

To disconnect the OPT7 light kits. Click the icon  to .

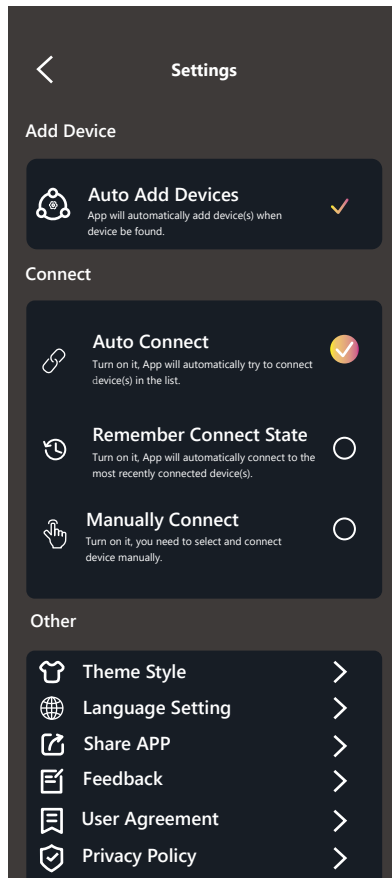

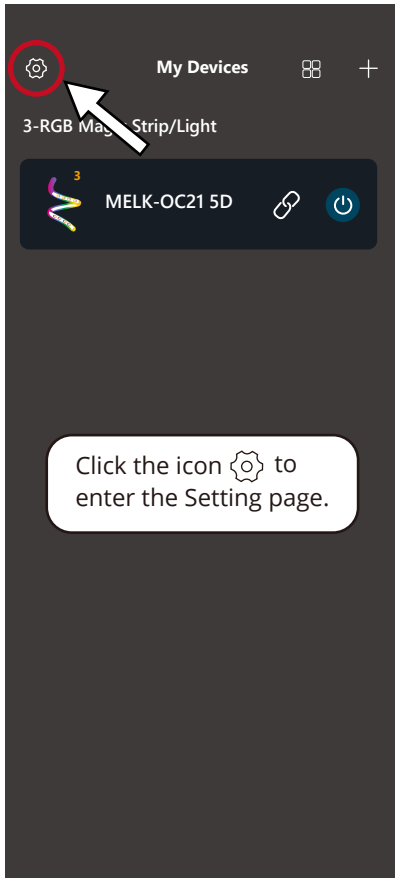

STEP 3

Ensure the OPT7 light kits are turned off using the remote control. Then, disconnect the OPT7 PLUS and slide the App out to power it off.

IMPORTANT

*Turning off the OPT7 PLUS completely avoids excessive battery consumption and extends the lifespan of the OPT7 light kits.

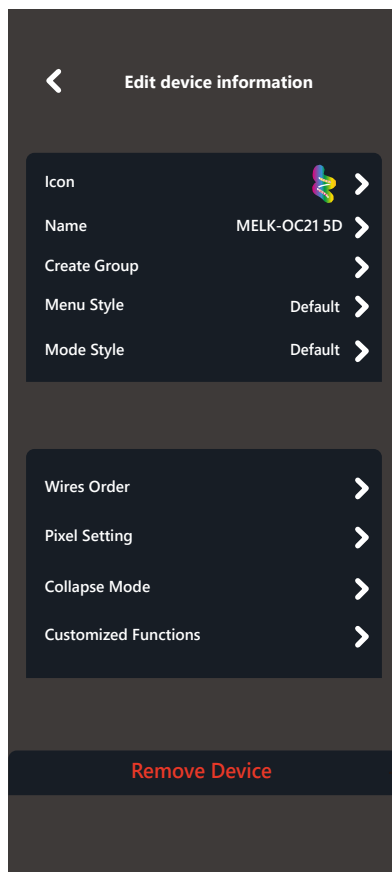

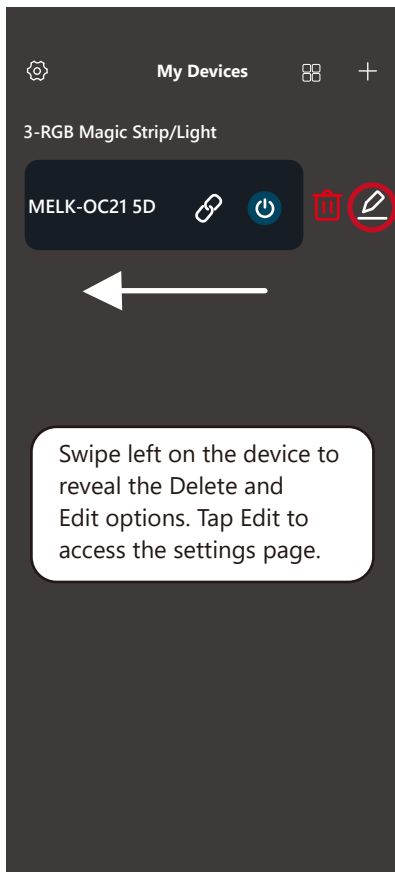

SYSTEM SETTINGS

DEVICE RENAME

How To Rename the Devices and Create a Group

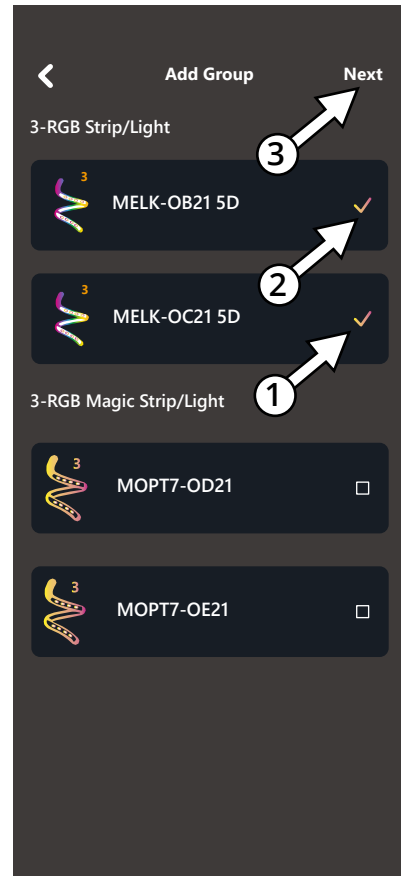

Tap the arrow to open the pop-up dialog, then rename your device.

Tap the arrow to open the Add Group page.

DEVICE SETTING

How To Rename the Devices and Create a Group

*Grouping is only supported between identical LED types: RGB to RGB, or RGB Magic (DreamColor) to RGB Magic.

*Different LED types cannot be grouped or controlled together.

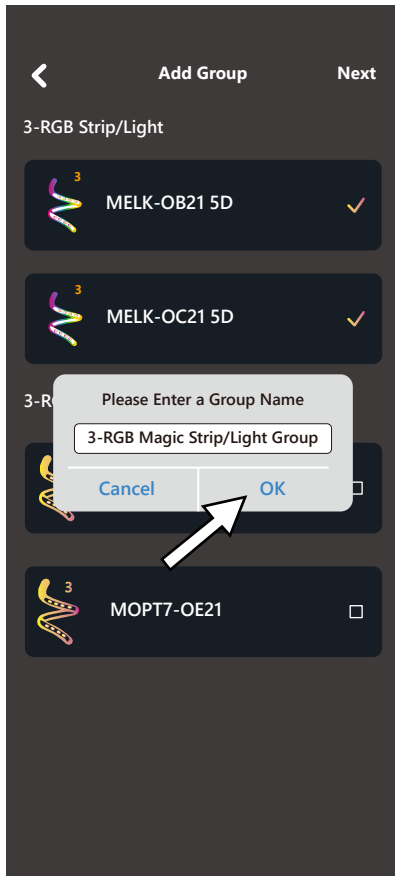

*Grouping Restriction: Only identical LED types can be grouped together.

*App Limit: A maximum of 4 kits can be connected to a single App.

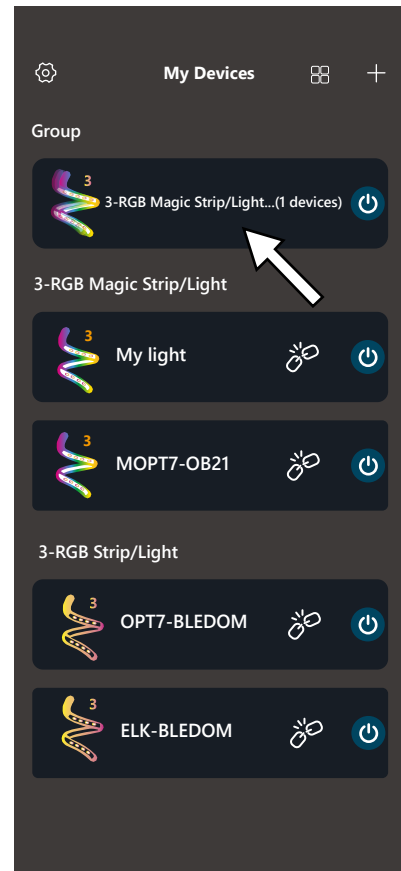

*Operation: Select the same LED type as indicated by arrows 1 and 2, then tap Next.

DEVICE SETTING

How To Rename the Devices and Create a Group

Enter your desired group name (for example, "Magic Strip/Light" for DreamColor kits). Once named, tap OK to complete the setup.

The App can now control the grouped LED kits simultaneously. Please note that color modes or display effects may vary across certain kits due to differences in strip length.

RGB MODE

HOW TO SET PIXEL

STEP 1

Ensure that the control box is properly connected then Click the icon  to enter Product Settings.

STEP 2

Click Pixel Setting to access the configuration.

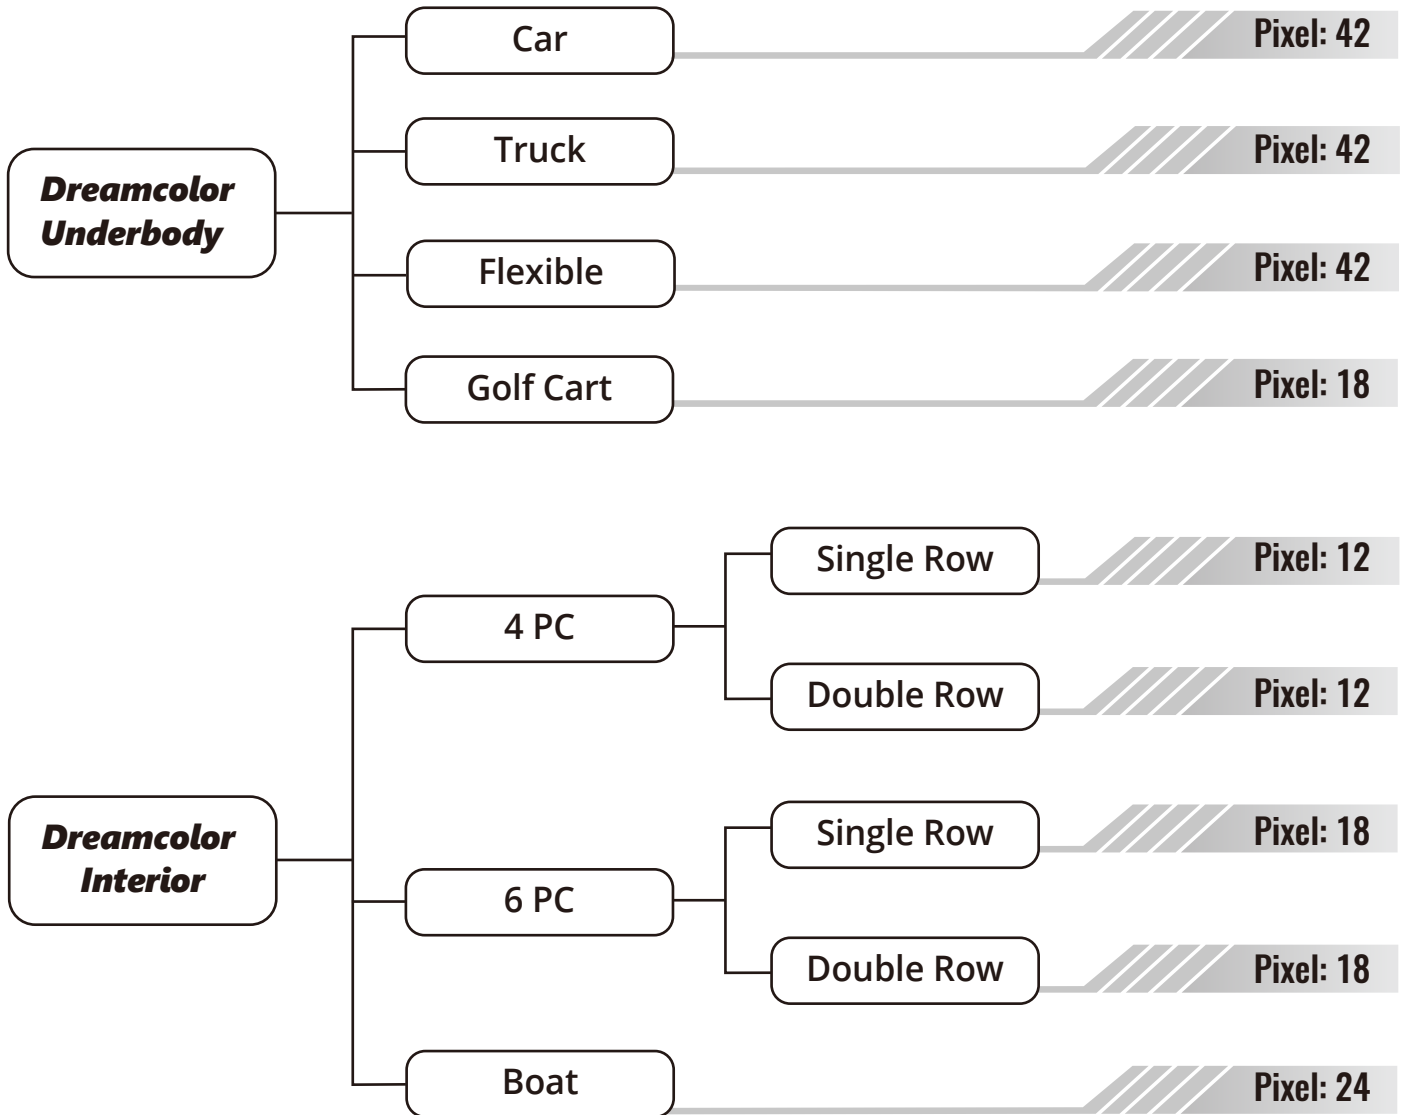

STEP 3

Refer to the table below for the corresponding pixel values of the OPT7 product. Enter the correct values to ensure proper functionality.

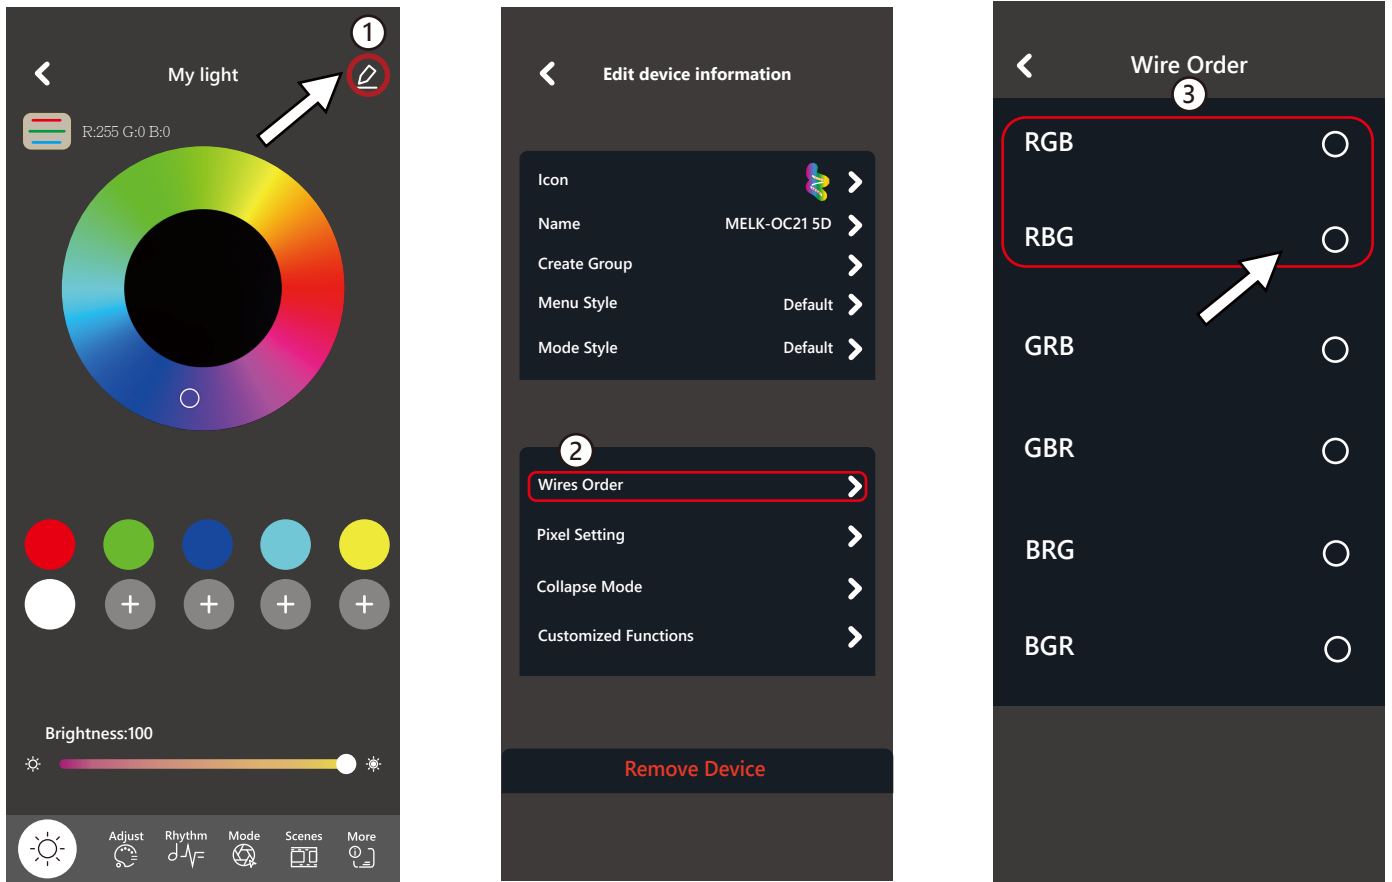

IMPORTANT

- *Verify that the control box is correctly set up and connected to the App when setting the control box pixel.
- *Only Dreamcolor products require pixel adjustments.
- *Make sure to enter the correct pixel values corresponding to your product.
- *Incorrect values may cause the product to malfunction.
- *After setting the pixel, remember to pair the remote control.

OPT7 PLUS DREAMCOLOR SERIES

COLOR SETTING

If you are having issues with color discrepancy between what's selected in the app and what the light kit actually displays. Here's a detail breakdown to remedy the issue.

STEPS

1. Open Setting

Navigate to the PENCIL Icon located in the upper right corner of the screen.

2. Access Wire Order setting

In the settings, locate and select the option labeled Wires Order.

3. Select the RGB as the Color Option

Choose RGB as the color section. If selecting **RGB** results in incorrect colors, please switch to **RBG**.

***If the issue persists, please contact the OPT7 Support Team:**
